

More active lunchtimes

Since Mark's visit from Skip n Rope, activity on the yard during break and lunchtime has reached an all-time high. We are delighted to see the children getting out and making the most of the time they have outside. The older children have been making use of the large rope and engaging in group skipping while many others are focusing on improving the tricks Mark taught them during his visit. Below are some pictures of our very active lunchtimes with smiles to be seen all around.
