

Skip n Rope Visit

On Monday February 6th Mark from skip n rope came to visit Oylegate NS. Every class took part in a skipping workshop where the children learned lots of new fun skills! Mark taught different skills to different classes and left the children with the challenge of teaching their skills to the children in other classes. The level of participation was truly remarkable. All the children thoroughly enjoyed the day and a bit of a skipping epidemic seems to have broken out in the yard ever since! At the end of the day the children from first to sixth gathered in the hall for a skipping extravaganza where children from all the classes demonstrated what they had learned. The skips ranged from individual to partner, to eight people skipping with one rope and one person skipping in two ropes! All in all it was a wonderful day and lovely to see such enthusiasm from the children.
