

The Irish Wheelchair association visited the school on 13th of February for CPD for the teachers. While Joanne was here we actively participated in a range of PE lessons while using the wheelchairs. Joanne gave us suggestions on how to integrate wheelchair users into our lessons and how to adapt lessons if possible.

She agreed to return to us during Active Schools week and give taster sessions to the children. The children played chasing games and did mathematical races all while using the chairs. At the end there was a basketball game with the teachers and students. It was a thoroughly enjoyable day where the children actively learned about the challenges and opportunities available for wheelchair users.
